“My name is Jenny, mother of Saab. We are a family of four – my husband and me and our two children (a girl and a boy). My youngest child is just 10 months old. At the moment, we are renting a small space worth 3,000 pesos a month (\$62). My family is struggling financially because it was just early this year that my husband and I were able to land a job. My husband’s work is skeletal and sometimes he is on call only. This means that he will not be able to get the full salary for the month. This prompts me to look for a job to augment the family’s income. Good thing, my mother stays with us and she takes care of my children.

Saab is now in Grade 1 and we are thankful that she is able to study at GCCS through the sponsorship program. I am sure my daughter will learn a lot from her teacher this school year although classes are done virtually. My mother will assist her in her studies and my husband, too when he is out of work.

To her sponsor, my family is thankful for this huge assistance you are giving to us through the sponsorship program. We will be praying for your safety always. God Bless.”
