

**SEMCO**  
Energy Waste Reduction  
Save Energy. Save Money.

Dear Parent/Guardian:

This year our class is studying energy and has been selected to participate in the exciting Think! Energy program. It will enhance our curriculum and allow students to apply at home what they learn in school. Your child will learn easy ways to use energy and water more efficiently. Improving your home energy efficiency will help you save energy, reduce your energy bills and help protect the environment!

Here are a few key aspects of the program and what you can expect:

- Your child will participate in a Think! Energy presentation at school conducted by the National Energy Foundation (NEF).
- Your child will be given a *Take Action Kit* consisting of energy-efficient products. Please use the form below to let your child's teacher know if you do **NOT** want the **no cost** kit pictured here. If you want the kit, but cannot use an item in your home, please share it with a neighbor, friend or relative that lives nearby.
- Help your child install the energy-efficient products at home. It is easy. Review the *Family Activity Guide* and the Think! Energy poster with installation instructions to learn how to use each item. You will save energy as you install the items.
- Visit [ThinkEnergy.org/semco](http://ThinkEnergy.org/semco) for helpful hints, videos, games and more.
- Complete the *Home Energy Worksheet*. Please include items you gave to others on your *Home Energy Worksheet* if you know they were installed. This information helps connect our learning to real-world actions, completing the learning cycle.
- Your feedback is important. Returning the form helps our class earn a mini-grant of up to \$100 from SEMCO ENERGY Gas Company.
- For assistance, call the National Energy Foundation toll-free at 800.616.8326 ext. 157 or visit the program website at [ThinkEnergy.org/semco](http://ThinkEnergy.org/semco) for installation videos and additional resources.

*Take Action Kit*

Think! Energy can be a positive experience for your entire family. Not only will it encourage your child to be a leader in your home and community, but your family may also benefit from reduced energy and water bills!

If for some reason you do **NOT** want your child to bring home the FREE energy efficiency kit, please complete the form below and return it to school. Thank you for participating.

Program Collaborating Partners:

Please do **NOT** give the child listed below the free *Take Action Kit* of energy-efficient products.
